Start The New Quarter With Tutorial Assistance

The Tutorial Center continues to offer its services to students in all departments with a predominance in writing assignments, accounting and math. We are now entering our third quarter in Room A2 on the West Campus, but there are still students out there who have not yet heard of our existence. Remember: services are free to all Humphreys students, and if you talk with any student who has availed himself or herself of our efforts, you will find that, without exception, the report will be that grades have been improved. One of our students came to the Center at the beginning of this quarter hoopin' and hollerin' that she earned outstanding grades in her first quarter of study and she owes it all to the Center.

Dr. D is pleased of course, but he doesn't entirely agree that the Center deserves full credit: she owes her success 99.9 percent to herself, and he'll take the credit for the remainder. Seriously, we congratulate her and all students who visited us last quarter and extend a warm welcome to all this quarter.

Instructor Evaluations

Lance Hall, Registrar

Thank you for participating in the teacher evaluations given at the end of the Winter quarter. Your feedback provides valuable information to the administration. You may have noticed that you evaluated more teachers than normal. Our goal was to have every Winter quarter instructor evaluated. This will be the case for the next couple of quarters. Your patience and cooperation are appreciated.

Commencement Exercises

Please do so at your earliest convenience. For your information, graduates may bring 10 guests to the ceremony, which will be at 7:30 p.m. More information to follow.
