

Bachelor of Science

Explore the courses required to earn your B.S. degree.

The Bachelor Science is a 181-unit online degree and meets the CRBC curriculum requirements to be qualified to sit for the CA CSR examination and adds a general education component, which provides the student with a strong academic background along with the technical proficiency and professional training required to function effectively upon entering the field. Students may not need to take all of the CRT classes, depending upon ability to advance through the speed levels.
